

World Stone Imports LLC

Fine Engineered Quartz Surface **Care and Maintenance**

World Stone Imports Quartz is an extremely low maintenance surface that is not easily damaged. Following a few simple instructions will keep your countertop looking like new for many years.

- Use mild soap and warm water for routine cleaning. Be sure to rinse thoroughly.
- Use a soft cloth or non-scratch scrub pad for stubborn spots.
- A plastic putty knife can be used to gently scrape off any dried residue.
- You should never cut or chop directly on your counter top. World Stone Imports Quartz is extremely scratch resistant, but it is not scratch proof.
- Use a hot pad when setting down hot objects. Direct contact with extremely high heat can cause damage.
- Take care to avoid spilling harsh chemicals such as drain cleaners, paint strippers, oven cleaners or bleaches on your Quartz countertop.
